## PROFILE

Young aged 22, reliable, hardworking, sociable and versatile, with a motivation to always offer the best of himself, passionate about information technology and computer science, I am a dedicated English studies graduate currently pursuing in software engineering. With a solid foundation in language and communication.

## EDUCATION

❖ **Ibn Tofail University** ..... Sep 2019 — Jul 2022  
*Bachelor Degree* Kenitra

Bachelor's Degree in English Studies with a focus on Linguistics, equipped with a comprehensive understanding of language structures, phonetics, and sociolinguistics. Proficient in analyzing language variation and communication patterns, enhancing my ability to navigate diverse linguistic landscapes.

❖ **ALX** ..... May 2023 — Jul 2024  
*Software Engineering Certificate* Casablanca

Studied computer science fundamentals such as data structures, algorithms, and programming languages in a rigorous software engineering program. With a one month left in the program, I developed strong problem-solving skills through hands-on projects and coursework that focused on designing and implementing software solutions.

❖ **Udemy** ..... Mar 2024 — Aug 2024  
*Web Development Certificate* Tiflet

Participated in a specialized web development bootcamp to hone skills in coding, web design, and digital marketing. Engaged in intensive training sessions focused on advanced topics such as server-side scripting, database management, and web security. Obtained a certificate of completion from the program and demonstrated expertise in building dynamic and interactive web applications.
